

GEAR-PN-S-KIT-05-2

Pneumatic Solenoid Kit with 2 Hi Speed Valves for EGAS. This pneumatic valve block is very small and compact, we have developed its design over many years of testing. The 2-valve version is for use with EGAS/electronic throttle, where only the gearshift actuator is required to be controlled by compressed air. The electronic throttle is controlled directly by the ECU and blips the throttle as required.

4-way sure seal (Male) fitted to valve block

(Mating half is part No. ITT 120-8551-002)

1. 12v
2. N/C
3. UP
4. DOWN

Hoses

UP	-	6mm Yellow
DOWN	-	6mm Black
SUPPLY	-	6mm Red
